Medical Insurance Predictor

R2: 0.8653

- › Matrix regression with Interaction Terms (BMI x Smoker)
- › Closed-form Normal Equation – no gradient descent
- › R2 = 0.8653 on 1,338 samples

Ames Housing Engine

R2: 0.8667

- › Log-Transformation to fix right-skewed SalePrice
- › 80+ features engineered; RMSE: 0.1823 on 1,460 samples
- › Ridge regularization with cross-validated performance

Image Filter Engine

LIBRARY-FREE

- › Pure NumPy matrix ops – zero OpenCV dependency
- › Sobel/Laplacian edge detection & Gaussian blur

Titanic Survival Pipeline

CLASSIFICATION

- › Full pipeline: imputation, encoding, ensemble models
- › Feature engineering & cross-validation applied

// SSB_PREPARATION

- › Active SSB Candidate – Navy Tech Entry, Bhopal
- › Daily PPDT / TAT / WAT / SRT practice sessions
- › GTO tasks and group coordination drills
- › Disciplined framework applied directly to ML dev

// ACHIEVEMENTS

- › LeetCode: SidJai24 – active DSA solver (Java)
- › 4 production-grade ML models deployed
- › OpenCV-free CV pipeline using pure NumPy
- › Live portfolio: Sid2403-max.github.io/My-Portfolio

// BEYOND_THE_CODE

- › Air Pistol Shooting – precision & mental control
- › Basketball – team strategy & coordination
- › Competitive Programming – algorithmic thinking
